

ZONING CLEARANCE REPORT

March 11, 2020

Prepared for
Town of Montverde
Attn: Brenda Brasher

Parcel No. 1663695 (ALT Key)
17408 Porter Avenue
Applicant: Robert Harper
Application Number: 2019-03-004

The applicant has requested approval for relocation of the historic 750-ft² "Fish Camp" building to be located on 17408 Porter Avenue as an accessory structure. The applicant has been granted approval from Town Council for the relocation.

The applicant has submitted the required Town of Montverde Zoning Clearance Forms, site plan, and engineering plans. My review is based upon the aforementioned documents provided to me by the Town of Montverde. Additionally, the Town's engineer, Brett Tobias, P.E. reviewed the same documents as submitted by the applicant.

The Subject Property is zoned Single-Family – Medium Density (R1-M).

The proposed site plan indicates conformance with zoning requirements of Chapter 10, Town of Montverde Land Development Code (LDC). The application is consistent with criteria as prescribed in Chapter 4 of the Town's LDC.

A zoning clearance is granted with the following recommendations (non-mandatory):

- 1.) The accessory structure will likely be visible to neighbors. The accessory structure is closely adjacent to the neighbor's property side yard. To protect and enhance property values, the Town recommends installing a row of shrubs around the accessory structure (at least along the side facing the neighbor's property). This landscaping can be completed affordably and effectively by utilizing the Town's preferred plant list including shrubs like Walter's Viburnum (*Viburnum obovatum*) in 3 Gallon pot material spaced 3' apart around the shed.

A zoning clearance is granted with the following conditions:

Applicant must initial each condition within initial box.

- 1.) Landscaping if proposed should be completed in conformance with the Town of Montverde Land Development Code. Any new trees planted on-site to meet the minimum four canopy tree requirement must be at least 2.5-inches caliper and in a thirty (30) gallon container or greater.
- 2.) Please see the attached landscaping prohibited plant list. The applicant should adhere to these guidelines when planning and installing landscaping.
- 3.) Expansion of the existing driveway is not permitted. Construction of an additional driveway is not permitted.
- 4.) If trees are proposed for removal, the applicant agrees to submit (prior to installation) an application for a tree removal permit and subsequent required tree mitigation.
- 5.) The accessory structure will adhere to 7.5-ft side-yard and 25-ft rear yard setbacks.
- 6.) The accessory structure will not be inhabited or utilized for rental.
- 7.) The Property is zoned residential. Therefore, the accessory structure will not be utilized for business use.
- 8.) The accessory structure pad, retaining wall and basketball court must maintain rear yard and side yard setbacks accordance with the attached site plan.

NOTE: The applicant must obtain approval from the Town's Building Inspector prior to construction.

The Applicant acknowledges that the aforementioned conditions including setbacks and landscaping and tree removal permit (if required) must be completed in accordance with the Town's Land Development Code and Applicant is responsible for any cost associated with required changes subsequent to inspection by the Town and prior to issuance of a final Certificate of Occupancy.
